

**ADVISING A NETWORK COMPONENT FOR CONTROL OF  
COMMUNICATION SESSION CONNECTION THROUGH EMPLOYMENT OF  
ONE OR MORE COMMUNICATION SESSION RESTRICTIONS**

**ABSTRACT**

5           An application server component of an apparatus that serves to maintain one or  
more communication session restrictions set by one or more administrators for one or  
more mobile communication devices. The application server component employs one or  
more of the one or more communication session restrictions to advise one or more  
network components for control of one or more connections of one or more  
10 communication sessions for one or more of the one or more mobile communication  
devices.
